NEBRAAS SATTAR

nesattar786@hotmail.com | github.com/nebraassattar

EDUCATION

University of Connecticut, Storrs, CT Expected May 2027
Bachelor of Science in Engineering, Computer Science and Engineering
GPA: 3.636 | Alpha Lambda Delta Honor Society
Relevant Coursework: Machine Learning, Data Structures and Algorithms, Computer Architecture, Cybersecurity, C++ Programming

TECHNICAL SKILLS

Languages: Python, C, C++, Kotlin, JavaScript, R, RISC-V Assembly
Frameworks and Technologies: React, Flask, Android, Room, MVVM, REST APIs, HTML, CSS
Tools and Practices: Git, GitHub, Docker, GitHub Actions, pytest, pylint, Vitest, Agile, code reviews

SELECTED PROJECTS

Marketplace Web Application | React, Flask, Docker, GitHub Actions Dec 2025
- Built and integrated full-stack features for item listings, listing management, and buyer-seller interactions in a four-person Agile team.
- Developed Python backend API endpoints and connected them to a React interface, supporting reliable data flow across services.
- Containerized frontend and backend services with Docker and strengthened quality through pytest, pylint, Vitest, pull requests, and code reviews.

CriminalIntent Android Application | Kotlin, Room, Coroutines, MVVM Apr 2026
- Implemented a Room-backed repository and asynchronous data access with Kotlin coroutines and StateFlow.
- Connected RecyclerView screens to lifecycle-aware ViewModels, keeping UI state and database operations cleanly separated.

Stack-Based Arithmetic Expression Evaluator | Python, HTML, CSS, JavaScript Sep 2026
- Implemented expression parsing and evaluation with operator and operand stacks, including precedence, parentheses, unary negatives, and division.
- Added practical validation for malformed expressions and built an interactive webpage that animates each evaluation step.

Robot Turn and Rewards Android Application | Kotlin, XML, MVVM Feb 2026
- Developed a multi-activity turn tracker with real-time point totals, reward redemption, and dynamic turn indicators.
- Preserved state across configuration changes using ViewModel and onSaveInstanceState while separating game and rewards logic.

EXPERIENCE

CVS Health | Pharmacy Technician Dec 2024 - Present
- Process and package prescriptions accurately while following safety, privacy, and regulatory requirements in a high-volume setting.
- Investigate insurance rejections, overrides, and discrepancies by coordinating with patients, pharmacists, and insurance providers.
- Balance competing priorities, communicate clearly with customers, and meet time-sensitive workflow deadlines with close attention to detail.

LEADERSHIP AND ACTIVITIES

UConn Motorcycle Club | Member Jan 2025 - Present
UConn Calisthenics Club | Member Sep 2024 - Present
